

FOCUS

IMMUNE OPTIMIZED,
FAST-ACTING,
MENTAL FOCUS DRINK*

ALOVÉA'S ADVANCED SOLUTIONS FOR FAST-ACTING AND SUSTAINABLE MENTAL FOCUS!*

- Mix It, Drink It and Feel It!
- Mental Energy Activator*
- Focus Enhancer*
- Mood Changer*

Years ago I formulated one of the top-selling energy drinks in the direct sales industry. FOCUS is the next generation creation, based on the latest science, using the finest ingredients in the right amounts. Focused, clean energy plus immune support will surely brighten your day!

— Dr. Robert Hackman

CLEAN ENERGY & MENTAL FOCUS ENHANCER WITHOUT THE CRASH

A proprietary blend of whole food-sourced vitamins amino acids, caffeine and bioactive plant compounds that can energize the brain's functions of focus, alertness, attention, and memory.*

FAST-ACTING & SUSTAINABLE IMPACT

Provides 4-6 hours of optimal impact without the insulin response and energy crashes associated with high-sugar drinks.*

SUPER CHARGED WITH IMMUNE OPTIMIZING ALOVÉA AE™

Alovéa AE™ contains the highest levels of immune activating Acemannans, which have been shown to improve cognitive performance.*

NO Artificial Flavors
NO Artificial Colors
NO Artificial Sweeteners

WARNING: For those 18 and older. Check with healthcare professional before using product if pregnant or nursing. Not for use by children or those sensitive to caffeine or choline.

SUSTAINED FOCUSED ENERGY VS. A SHORT BLAST OF JITTERS

Many popular energy drinks either spike your blood sugar levels or overstimulate your adrenal glands in order to release high levels of fight-or flight hormones. Focus provides fast-acting, gentle, and sustained energy. People want focused energy, not jittery energy followed by a crash.

THE SCIENCE-BASED SOLUTION

Alovéa's FOCUS proprietary formula represents a "Best in Class" nutritional solution to help people feel better, look better, and perform at their very best.* Our innovative formula uses these great ingredients, in the right amounts:

Choline - An essential nutrient that serves as the biochemical building block for acetylcholine, a critical neurotransmitter that helps enhance mental performance.

L-theanine - An amino acid that is similar to glutamate, an excitatory neurotransmitter. L-theanine also supports brain dopamine levels, helping to provide a relaxed, focused effect.

L-tyrosine - A key amino acid that supports brain dopamine production, which is known to enhance mental focus and motivation.

Fermented whole food-sourced vitamins and a patented new **CoQ10** extract, designed for maximum absorption, and to enhance the production of clean energy at the cellular level.

Supercharged with our exclusive Alovéa AE™ Acemannan Extract that contains the industry's highest percentage of the immune-activating fractions of Acemannan. A strong immune system helps the body direct energy to other critical organs like the brain.

All-natural sweeteners include stevia, monkfruit, and **Palatinose™** isomaltulose, a unique plant-based, low glycemic carbohydrate that provides a sustained release of energy without the unpleasant aftertaste of other sweeteners or the harmful effects of artificial sweeteners. Palatinose™ has a low glycemic index, while maltodextrin, commonly used in energy drink powders, has a very high glycemic index.

Every Alovéa product purchased helps to nourish children in need through our Buy 1, Nourish 1™ giving initiative. For details, visit us online at alovea.com/hopemovement
